### Review:

I really like the approach that Bionova has towards skincare, everything on their site was really alluring, I wanted one of everything after reading through all the descriptions. I was drawn to the Superior Eye lift because I am starting to see fine lines around my eyes and sometimes I can have the occasional dark circle (when I don't hit the hay early enough).. The consistence of the eye cream is AMAZING. It's nice and thick and goes on every easily.. I pat it on and it melts into my skin, leaving it looking and feeling really hydrated.If you do a pinch test, my skin just falls back into place so it's totally hydrated.. I find that it absorbs quickly and works really well under my

concealer as well as my eye makeup. My eye area looks fresh and healthy and it's thanks to the Bionova eye cream. As directed I am using this morning and night for the first 2 weeks then I'll go to mornings only. The one downfall to me is the fragrance, it's got a strong scent, like a floral body cream. I am not having any reactions but when I apply it I can smell it. I had to mention for all the guys and dolls out there who don't like scented facial products.. IF you are in the market for a super emollient hydrating eye cream then I highly recommend looking into this Superior Eye Lift.. It's a really nice product!! At this time my eye area appears to be smooth and my makeup isn't riding in any of the laugh lines so it's doing it's job!!
